

IN HOUSE PD

Teachers share their knowledge with other CISB teachers.

CONTINUED EDUCATION

Teachers continue further education such as Masters degrees and PhDs.

MEd course
Visiting Professor:
Dr. Alan Sears, UNB.

Lifelong learners...

Teachers at CISB model for students the importance of being lifelong learners. Teachers receive IB training every year and may attend other specialist workshops as needed. This ensures our teachers are always innovative and informed on best practices in instruction and curriculum.

JOB-ALIKES

Teachers shadow other teachers to observe best practice and share ideas for their roles.

Teachers often receive training from IB or other professional learning organizations. This builds the capacity, knowledge, and confidence of our staff in curriculum, philosophy, and practice.

Teachers attend and present at educational conferences locally, nationally, and internationally.
