

A Look Inside... Our *Run with HeArt*

The Elementary held a memorable event on Friday, October 19th.

The teachers collaborated to plan a morning for students to **get exercise, sing, dance, enjoy the outdoors, experience art, and socialize with their learning community.**

This reminded us of the importance of being **balanced** as a learner.

At **CISB** we are dedicated to a transdisciplinary approach to learning. This allows us to gain a broader awareness of the world and our place within it. Throughout our programme we exhibit the many ways that students learn and experience education. This promotes the development of well-rounded individuals that can draw on many different experiences and perspectives throughout their lives.
