

Canadian Academic Academy Program (CAAP)

IELTS Class Enhanced Lesson Details

Grade 8-11: Enhanced IELTS TEST Courses

For grades 8-11 the CAAP program will offer IELTS classes for students who wish to study in the UK, Canada and Australia. We have pre-IELTS program (focusing on elementary knowledge, and designed for students whose entry test score is below 5) and Intensive IELTS program (focusing on advanced knowledge, and designed for students whose entry test score is above 5). Knowledge will be imparted according to students' academic level to ensure that they can get improvement.

| Pre-IELTS program | Intensive IELTS program |
|---|---|
| Vocabulary expansion and analysis of sentence structure | Comprehension and Composition of complex sentences |
| Methods and techniques for basic questions | Methods and techniques for difficult questions |
| Introduction to academic English | Further development of academic English: thinking and application |

Aims:

- To help students to prepare for either the IELTS test.
- Enhance students reading and writing skills
- Equip students with skills to understand the questions and find the information quickly
- Provide students will model answers in order to achieve high scores.

Class Content:

IELTS

IELTS stands for International English Language Testing System which goes for 3 hours. The IELTS is Standard English test for students who want to study in the U.K. Australia, New Zealand or Canada. Our course will mainly focus on reading and writing. This is mainly because at an international school students use English take classes so they have very little difficulty with speaking and listening but they still struggle with reading the academic texts which appear in IELTS as they are often taken from university text books or articles which are a much higher level than what they study at school. The IELTS reading test many different skills. Students will trained to read for the general sense of a passage, read for the main ideas, read for details, understand inferences and implied meaning, recognize a writer's opinions, attitudes and purpose and follow the development of an argument. In regards to writing, students will be trained for both writing tasks in IELTS which includes: descriptive writing for graphs and statistics and essay writing. Students will learn to write a response appropriately, organize ideas and use a range of vocabulary and grammar accurately.

Classes will be held twice a week for 2 hours each class.
