

CISB SY2324 the 1st Term of Nonpay ASA--Sep 4 to Nov 8

Day(s) (Monday to Thursday)	Time	ASA Title	Teacher Name	Grades	Max Number of Students per teacher	Room Number	A brief description of ASA
Monday	15:40-16:40	StageKittens Jr.	Ferly Mae Torzar, Sarah Boyle, Ameliza Pepito, Grape Ann Dua	K-G3	40	Auditorium	This lively musical production introduces children to the world of theater, music, and dance. Students will develop their abilities in the performing arts, teamwork and collaboration, discipline and time management, confidence and self-expression, and creativity and imagination. This ASA will run from Term 1 to term 2 (September 5th -January 23).
Monday	15:40-16:40	Novalearn	Irene Zhou	G2-4	10	W117	The NovaLearn After-School Program is a new learning experience for students to explore their interests in STEAM (Science, Technology, Engineering, the Arts, Maths), improve their English language skills, and develop essential 21st-century skills such as creativity and critical thinking. Designed by IB teachers, the English-language program is a mix of online and offline learning. Classes are held in school once a week, following a set plan of courses on our e-learning platform. To encourage students in self-paced learning, they will complete the video courses, quizzes, and challenges at their own pace with a teacher in class to provide support and guidance as needed. This allows for a more effective and personalized learning experience for students.
Tuesday	15:40-16:40	Art reading game	Julie	G4	5	W418	Students will develop their ability in art history, drawing skills, collaboration, and reading skills. Help students discover the world's great works of art, explore different artistic style, techniques and tools.
Tuesday	15:40-16:40	Chinese Calligraphy	Maggie and Irene	G3	6	W111	Chinese calligraphy is an ancient art of writing Chinese characters, and Chinese characters are an important element in Chinese calligraphy. We hope that CISB's students will know more about the culture of Chinese characters.
Tuesday	15:40-16:40	Novalearn	Hasnaa Yafi	G2-4	10	W317	The NovaLearn After-School Program is a new learning experience for students to explore their interests in STEAM (Science, Technology, Engineering, the Arts, Maths), improve their English language skills, and develop essential 21st-century skills such as creativity and critical thinking. Designed by IB teachers, the English-language program is a mix of online and offline learning. Classes are held in school once a week, following a set plan of courses on our e-learning platform. To encourage students in self-paced learning, they will complete the video courses, quizzes, and challenges at their own pace with a teacher in class to provide support and guidance as needed.
