

## EY/ES After School Activities Program Term 1 (Sep 9-Nov 8)

Day	ASA Title	Teacher's name	Description and the expected project / outcome	Room Number
Monday	Recycled Art Projects (K-2)	May	Transforming recycled materials into unique art pieces while developing an understanding of the importance of sustainability and environmental responsibility.	W207
	Chinese Art and Painting (G3-5)	Lucy	In this course, you will gain a preliminary understanding of the techniques of Chinese painting. Each class session is designed for you to complete one painting.	W410
	Asian Poetry (K-2)	Annie	Students will have fun with learning, singing Chinese poems, and dance with the music.	W408
	Comic Book and Creative Writing (G3-5)	Teacher Yhap	Students will get to explore and develop their creative writing skills through the comic books. Where students will develop their own stories and create their own unique characters. At the end of the ASA students will make their own original comic books.	W208
Tuesday	Clay Modeling (K-2)	Chea	Students will explore the world of clay modeling and sculpting by learning techniques to transform clay into whimsical characters and creative forms, developing fine motor skills and artistic expression.	W210
	Dance Club (G3-5)	Mana	Students will develop their rhythm and coordination, and express creatively through movement. This club not only promotes physical fitness but also fosters teamwork and self-confidence as students perform together and showcase their skills.	W212
	Journalist and Little interviewer (4-5)	Kitty	Children will develop foundational communication skills, including asking thoughtful questions, active listening, and clear expression. They will gain confidence in speaking and storytelling, enhance their curiosity about the world around them, and begin to understand the basics of gathering and sharing information. These skills will support their overall language development and help them become more engaged and thoughtful learners.	W317
Thursday	Story Telling (K-2)	Paul	In this ASA, learners will experience stories and act out with props, actions, and songs, bringing stories to life to support reading comprehension. By the end of this ASA, the students will have gained comprehensive understanding of stories through collaborative acting out and musical retelling.	W312
	Coding (K-2)	Dyan	Young learners will embark on an exciting journey into the world of coding! This ASA introduces essential coding concepts and skills for beginners through engaging activities. Children will have opportunities to explore various coding tools and unleash their creativity as they create fun projects. As they progress, they will apply their growing knowledge and skills as novice coders.	W213
	Math Wizards (3-5)	Paula	Designed for students in Grades 3-5, this after-school activity blends foundational math concepts with engaging games, puzzles, and hands-on activities. Our goal is to make math both enjoyable and confidence-boosting for your child. As students immerse themselves in a variety of interactive challenges, they'll develop problem-solving skills, enhance their mathematical thinking, and discover the fun in learning math. Join us on Thursdays for a term full of fun and math mastery!	W320
