

SY2425 EYES Non-Pay After School Activities Program --Term 2 (Nov 11,2024 - Jan 17,2025)

Day	ASA Title	Grade	Teacher's name	Description and the empaded project / outcome	Room Number
Monday	Junior Culinary Creators	K-G2	Zoe and Jiali	Join our exciting After-School Cooking Class for Kindergarten to Grade 2 students! In this hands-on class, young chefs will explore the joy of cooking while learning essential kitchen skills. Each week, we'll create simple and delicious recipes using healthy ingredients, fostering a love for nutritious food. Children will work together to measure, mix, and prepare various dishes, promoting teamwork and creativity. We will guide the students to develop confidence in the kitchen while having fun. Come stir, taste, and create with us—where cooking is both enjoyable and educational!	Demo kitchen
	Eco-Friendly Paper Matche	G3-5	Mallamma	Enhanced Creativity and Innovation •Outcome: Students will apply creative thinking to transform recycled materials into meaningful art projects. •Learner Profile: Thinkers – Students will approach challenges with innovation and curiosity, using their creative problem-solving abilities.	W418
	Paper Art Fantastic Journey	G3-5	Iris	It's a fascinating journey into the world of paper art. Here, students will experience the magic of transforming simple strips of paper into beautiful and intricate creations.	W419
Tuesday	Lego Building Challenge	K-G2	Amanda	"Lego Building Challenges" is a hands-on after-school program for students in grades K-2 that encourages creativity and problem-solving through fun, weekly Lego challenges. From constructing towers and bridges to designing imaginative vehicles, students will develop fine motor skills, basic engineering concepts, and spatial awareness. The program promotes teamwork and confidence as students collaborate to bring their ideas to life, all while enjoying the creative process in a supportive and engaging environment.	W219
	Rhythm and Movement	K-G2	Sneha	Students will enhance their coordination, fitness, and creativity through the Rhythm and Movement Club, which introduces new dance styles each session, promotes self-expression, and culminates in a "Dance Performance Showcase" where they share their choreographed routines with peers and families.	Dance Studio
	Clay Creations: A Journey into the World of Nature	G3-5	Harriet	Participants will explore sculpting plants, animals, and fruits from clay, enhancing artistic skills, fine motor abilities, and imaginative thinking through a hands-on experience.	W406
Thursday	Chinese Culture experience club中国文化体验	K-G2	Lisa	1 This program designed for students in G1 1 and 2 . We aim to let children experience the charm of excellent traditional Chinese culture in a relaxed and fun atmosphere. 2 The activities will involve the experience of traditional Chinese festivals, traditional crafts and culture-themed games 3 Please note that this activity requires basic skills in the use of folding and cutting. 4 The language of instruction is Mandarin Chinese.	W409
	Artist's Book Club	G3-5	Caisha	Students will create original artworks inspired by a selection of well-loved children's books. The goal is to foster a love for literature while nurturing creativity and artistic skills.	W316
