

SY2425 EYES Non-Pay After School Activities Program –Term 4- 21 – June 13 (8 weeks)					
Day	ASA Title	Grade	Teacher's name	Description	Room Number
Monday	Paradise of Creative Painting	K-G2	Iris	This after-school activity is a relaxing and enjoyable activity that allows students to choose from a wide variety of beautiful designs and bring them to life with their own colors and brushstrokes.	W419
	Move & Groove: Creative Dance	K-G2	Rose	This activity introduces young learners to the joy of movement through creative dance. Children will explore rhythm, coordination, and self-expression using fun music, dance games, and simple routines. Each session encourages imagination and body awareness while building confidence and teamwork through movement. Designed to be playful and inclusive, this ASA supports physical development and emotional expression in a fun, supportive environment—perfect for energetic young dancers!	W218
	Explore the beauty of Chinese solar terms 探索中国节气之美	G3-G5	Lisa	In this activity, students will explore the beauty of Chinese solar terms. They'll understand the cultural connotations and natural laws within them. Through engaging tasks, students can develop observation and creativity, and cultivate teamwork spirit. This activity also strengthens their love and identity for Chinese traditional culture. All instructions are in Mandarin Chinese, aiding language learning and cultural immersion.  The Student will produce a project on the 24 Solar Terms within a period of eight weeks.	W409
	Canva and PPT Creators	G4-G5	May	This after-school activity is designed to help students enhance their creativity and communication skills using Canva and PowerPoint. Students will develop proficiency in Canva and PowerPoint and gain confidence in designing slides, posters, and digital materials for academic and creative projects.  <i>(Students should bring their own laptop, as Canva won't work on an iPad.)</i>	W207
Tuesday	Comic Book Creative Writing	K-G2	A. Yhap	In this exciting after-school activity for Kindergarten to Grade 2, students will dive into the world of comic book creative writing! They will learn how to create their own simple comic book stories featuring original characters of their design. Through engaging drawing sessions, kids will explore different character styles and develop a narrative using vibrant pictures. Additionally, we will introduce the fun concept of flip books, allowing students to animate their stories in a unique way. This creative experience will inspire imagination and storytelling skills while fostering a love for art and comics!	W208
	Exploring AI Learning Tools for Smarter Learning	G3-G5	Irene	Welcome to our "Exploring AI Learning Tools"! In this course, we will discover and experiment with various AI-powered learning platforms like DeepSeek, Doubao, Jimeng, Keling, Kimi, Canva, and more. These smart learning tools can help us learn more efficiently, improve our research skills, and boost creativity. This is a non-paid, interest-driven class designed to help children enhance their learning abilities, search techniques, and creative thinking in a fun and interactive way. Let's dive into the world of AI learning and unlock new ways to learn and create together! Looking forward to an amazing journey with all of you! <u>Students need to prepare a laptop and a registered email.</u>	W115
	SDG Changemakers	G3-G5	Sneha	We're excited to welcome your child to our "ChangeMakers Club: SDG Adventures!", an 8-week after-school program where students in Grades 3–5 will explore the United Nations Sustainable Development Goals (SDGs) through fun games, creative projects, storytelling, and real-world problem-solving. Each week, we'll dive into a new SDG and learn how even kids can be superheroes for the planet and people! Can't wait to get started,	W309
Thursday	Melodies and Movements: Exploring Chinese songs and dances	K-G2	Harriet	We'll explore the world of Chinese culture through simple, catchy songs. Grades K-2 students will learn Chinese lyrics while singing along. Along with singing, we'll do easy dance moves. These movements will help kids improve coordination while they enjoy the rhythm of the music. It's a great chance for your child to have fun, make friends, and gain a taste of Chinese culture.	W406
	Exploring life skills in nature	G3-G5	Maria	We're taking our fun <i>outside</i> ! During this ASA we will be working in teams to build and practice our life skills! Get ready to move, laugh, explore, create and maybe even learn something new about yourselves and each other. Children will have the opportunity to enjoy outdoor (school area) activities practicing their SEL life skills e.g., solve teamwork puzzles in an obstacle course or explore how nature helps us feel calm.	W220
	Digital Story Creation	G4-G5	Caisha	This ASA will introduce students to digital storytelling applications such as Storybird, Book Creator and Toontastic. By integrating technology with storytelling, students will learn how to create their own digital stories, explore various multimedia elements, and develop their writing and communication skills in a fun and engaging way. Students will need to bring their own laptop or tablet.	W316
