

SY2425 EYES Non-Pay ASA Program --Term 3 (Feb 10, 2025 - Apr 18,2025)

Day	ASA Title	Grade	Teacher's name	Room Number	Description
Monday	Children's painting class	K-2	Lucy	W410	In our children's painting class, each week has a new theme for kids to explore. During creation, kids use diverse tools. Markers help with precise outlining and vivid details. Watercolors create fluid effects for landscapes or portraits. Crayons suit younger ones to express freely. Chinese painting pigments let them explore traditional elegance for flowers, mountains, etc. Through this, children learn techniques, discover painting's joy, see ideas come alive, gain confidence, and develop a lasting love for art.
	StoryCrafters: Drama and Art Through Tales	K-2	Amanda	W219	A creative and engaging after-school program for students in grades K-2 that combines the joy of storytelling with the fun of drama and crafting. Each week, young adventurers will embark on a journey through a new story, where they'll meet fascinating characters, explore imaginative worlds, and discover exciting plots. After the story, students will bring these tales to life through hands-on drama and craft activities that reflect the themes and events of the story.
	Yoga	G3-G5	Chea	W210	In this engaging program, students will learn basic yoga poses, breathing techniques, and mindfulness exercises that promote physical fitness, flexibility, and emotional well-being. Each session will include playful activities, games, and relaxation time, helping students to develop focus, reduce stress, and build confidence. Our Yoga ASA encourages a positive, supportive environment where children can unwind and express themselves. Come stretch, breathe, and discover the joys of yoga!
	Book Making Workshop	G3-G5	Kitty	W317	The Book Making Workshop is an interactive and creative after-school activity for students in Grades 4-5. In this workshop, students will learn about the art of bookmaking, from brainstorming story ideas and writing drafts to designing covers and binding their own books. Participants will explore different genres of storytelling, engage in creative writing exercises, and learn basic illustration techniques. By the end of the workshop, each student will have created a unique, handmade book that showcases their creativity and storytelling skills.
	Tin Can Planters	G3-G5	Mallamma	W418	The Tin Can Planter Activity is a creative project for Grades 3-5 that combines art and sustainability. Students will transform tin cans into decorative planters, learning upcycling techniques and the importance of reducing waste. They will explore painting and design while understanding the environmental benefits of plants and recycling. By the end, each student will create a unique planter, blending creativity with eco-consciousness.
Tuesday	Origami	K-2	Mana	W212	In this hands-on club, students will learn the art of paper folding, transforming simple sheets into amazing creations like animals, flowers, and more. Engaging in origami encourages spatial awareness and geometric understanding, as children learn about shapes and symmetry. Students will also enhance their hand-eye coordination as they fold paper into intricate designs.
	A Kaleidoscope of Chinese Culture and Creativity	K-2	Irene	W115	Students will learn about Chinese idioms and their origins. We'll look at the stories behind these sayings. We'll learn what they mean and why they matter. Students will use art, music, and projects to show these idioms. They'll make characters and simple costumes to act out the stories.
	Scrapbook Creative Art	G3-G5	Zoe	W116	Hey there, creative explorers! We will dive into a world of imagination and fun! In this class, the learners will be artists of their stories, using colorful papers, stickers, and amazing ideas to create unique scrapbooks. We'll embark on exciting adventures each week, learning new skills and discovering how to turn our memories into beautiful art! So grab your scissors and let's make some magic together!
Thursday	舞动文化 Culture Dancing	K-2	Annie	W408	In this activity, students will learn ancient Chinese traditional dance to experience Chinese culture through the dance.
	Fun with Numbers	K-2	Paula	W320	In this after-school activity, students will explore numbers through a mix of games, hands-on activities, and read-alouds. By the end of the activity, students will have had opportunities to practice number recognition, simple counting, and basic math concepts in a fun and interactive setting.
	Mindfulness Through Art	G3-G5	Dyan	W213	In this engaging after-school activity, students will explore a variety of art practices that promote mindfulness and self-expression. Through activities such as painting, drawing, and crafting, participants will learn to focus their minds, reduce stress, and enhance creativity. Each session will include guided mindfulness exercises to help students connect with their thoughts and feelings while they create.
