

EY/ES After School Activities Program Term 3 (Jan. 26, 2026 - Apr. 3, 2026)

Day	ASA Title	Grade	Teacher's name	Description and the expected project / outcome	Room Number
Monday	Beginner's Japanese Language Club	K-G2	Mana Ejima	In this ASA, students will explore basic Japanese vocabulary, simple phrases, and the writing systems through fun games and activities. The purpose of the club is to introduce a new language, build communication skills, and develop an understanding of Japanese writing. At the end of the program, students will sing a fun song in Japanese.	W212
	Text Drama	G3-G5	Annie Liu	In this activity, we expect students who love drama would like to try to interpret familiar text contents or familiar idioms, to get closer to the fun of the drama world. We also expect students have a solid foundation in Chinese expression, love performing and are willing to present a different side of themselves. At the end of the activity, we would film our textbook drama.	Dance Studio
Tuesday	Design and Build	K-G2	Irene Zhou	This ASA offers practical learning across multiple subject areas. Students will complete structured modules, including experiments on states of matter, technical drawing, three-dimensional construction, and logic-based problem-solving. The focus is on sequential skill-building through guided practice.	W219
	Typing & Tech 101	G3-G5	Dyan Bernardo	Typing & Tech 101 is an after-school program designed to help students develop early touch typing skills, essential for 21st-century learning. Each week, they will practice typing accurately using all fingers through leveled activities. Students will also apply their skills by creating documents relevant to their current classwork using word processing programs like Canva and PowerPoint. This program empowers students to become confident and proficient in their typing abilities while enhancing their learning experience.	W320
Thursday	Seeds of Fun	K-G2	May Bernardo	In Seeds of Fun, students become little gardeners, learning how plants grow while having hands-on fun with soil, seeds, and sunshine. Each week, children will explore the magic of planting through stories, songs, and simple experiments. They'll get to plant their own seeds, care for them, and watch them sprout into something amazing.	W316
	CISB Junior Chef	G3-G5	Kitty Yala	In this hands-on cooking ASA, students will learn basic cooking skills through easy and healthy recipes. They will practise measuring, following simple recipes, and working safely and cooperatively while preparing	Demo Kitchen
